

Mede8er - 500 Gig

Product Name: Mede8er - 500 Gig

Manufacturer: -

Model Number: TGS1007

The Mede8er has been designed for good solid media playback from a hard drive, USB device, SD Card, Internet or Local Network source. The User Interface is neat and intuitive without being complicated.

Play just about everything... on your TV.

The MED500X is the latest generation Multimedia Player specially developed by Sanji for today's demanding media enthusiast. The Mede8er has been designed for good solid media playback from a hard drive, USB device, SD Card, Internet or Local Network source. The User Interface is neat and intuitive without being complicated.

Supports HD Video Camcorder Files - Direct Transfer from your Camcorder to the Mede8er.

The Mede8er MED500x fully supports most camcorder HD files - now you can organize, store and watch your family videos in full HD on your TV.

Now there is no need to connect your camcorder to your PC to transfer your Videos, Pictures and files - you can do this easily in the comfort of your TV Room with the built in Mede8er File Manager. Just connect your camcorder to the Mede8er via USB and select the files you want to transfer on your TV and Mede8er will do the rest.

Real easy Home Photo slide show with music.

Just connect the Mede8er to your TV and start enjoying all your digital media on your big screen.

The Mede8er incorporates a HD JPEG engine that renders still digital images with superb clarity on your large screen TV. Now you can enjoy slide shows with background music with your family and friends. For easy convenience you can even insert your Camera's SD card directly into the Mede8er and view your pictures directly from the memory card.

Modern and simple HD User Interface.

The Mede8er MED500X User Interface has been designed in HD so icons are crisp and clear in all TV settings. The interface is easy on the eye and simple to use for any family member. The Setup Menu provides variable user option settings depending on personal user preference.

A new Media experience.

The MED500X has a special in folder preview feature that allows you to view a JPEG image inside a folder. This feature enhances your browsing experience and allows you to customise you Media Library to your own personal taste.

Mede8er - 500 Gig

Without opening the folder you can zoom the picture to full screen with the press of a button on the Mede8er remote. You can just use simple cover art or use one of the many free programs that are available on the Internet that will render an elaborate about.jpg with information on synopsis, rating, year, cover art, actors etc.

Direct transfer of Files, Pictures, Videos and Music

The Mede8er MED500X has a built in File Manager that allows you to transfer all your Files, Pictures, Videos and Music directly via USB, SD Card or Wire/Wireless Network. You can easily transfer files to and from any supported device via the on-screen menu.

Stream your Videos, Pictures and Music by WiFi to your Mede8er -(Optional adapter).

Listen to Live Internet Radio.

With the Mede8er you can listen to your favourite Shoutcast Internet Radio station from anywhere in the world.

Modern Gift Box.

The MED500X is packaged in a modern gift box including all the accessories you will need to get going. The kit includes a high definition HDMI cable suitable for high bandwidth signals as required in true 1080p Video files.
