Electronic Chess Sets by Saitek - Travel

Product Name: Electronic Chess Sets by Saitek - Travel

Manufacturer: -

Model Number: TGS1055

Saitek have been developing their Mephisto Chess Computers for over twenty years and now offer a consolidated range of their best ever products; designed to help you improve your game whatever your level.

Saitek's Mephisto chess computers are designed both to offer teaching levels and helpful hints to beginners as well as offer high-level tournament play challenges to expert and master chess players. Owning the right Mephisto computer will help you enjoy chess immensely if you don't have someone to play against. You will be able to spend hours practicing your game and actually improving and trying out moves you learn. Most of the computers can play very well, but you can customize the playing levels to suit your liking. You can get hints or instruction at any time.

Starting with some great entry level products, and progressing through to a select portfolio of top-of-the-range products - table top or travel - whatever your budget, whatever your playing level and whatever your playing position, Saitek can offer the product to suit your requirements.
