LED Lenser M14

Product Name: LED Lenser M14

Manufacturer: -

Model Number: TGS2377

These lamps are technological dynamite. Their core piece is the Advanced Focus System and lens technology. A double-shell reflector-lens allows for stageless transition from broad floodlight to a sharply focused long-distance beam.

The initial appeal of the new LED LENSER flash lights lies in its grace and dynamic elegance. But what's inside the beautiful housings is even more enthralling: These lamps are technological dynamite. Their core piece is the Advanced Focus System (starting with LED LENSER® P5). This lens technology, represents a milestone in the history of artificial light.

Press the push button gently to make the white beam of LED LENSER® appear before your eyes like a cathedral of light. A double-shell reflector-lens (patent pending) allows for stageless transition from broad floodlight to sharply focused long-distance beam. Most of these lamps are equipped with a new generation of 3 watt chips.

The LED LENSER® M14 is the flagship of the M series and the flashlight of choice for long-time missions. Before this lamp entered mass production, it had passed – with flying colors! – a multitude of thorough practical tests involving rigorous procedures.

The LED LENSER engineers especially had in mind emergency units whose working hours are incalculable: disaster relief workers, firefighters or police forces. When put to continuous use, the M14 impresses by its light output, its functionality and its outstanding running time: up to 96 hours** of reliable light!

Due to its extreme beam distance (up to 280 meters*), this handy lamp literally puts many a competitor's model of flashlights in the shade. In addition, you can fit the M14 to your particular requirements via light programs (Smart Light Technology), so that the light functions you need are accessible in a flash.

The M14 with individual light programs is a lighting tool that makes your work safer and more effective.

LED High End Power LED

Length 162 mm

Weight 364 g

Luminous flux

225 lm*

Batteries 4 x AA

Energy tank

16,8 Wh

Burning life

95.5 h**

Beam range

280 m*

Price: R898.80
