E200 S Scooter

Product Name: E200 S Scooter

Manufacturer: -

Model Number: pgg101

Electric scooters have been around for a while now, but we've always reckoned they've looked pretty awful and have been really shoddy. Well, now that's all changed thanks to Razor, the makers of the original foot-powered scooters. The E-Series Electric Scooters are a superb mixture of cool design, tough build and great performance. They'll go from 10mph (E100) up to 15mph (E300) and run for up to 45 minutes, making them faster and longer lasting than any other scooter to date. Their extra wide pneumatic tyres give a wonderfully smooth ride, and they have wide ergonomic riding decks, variable speed and powerful chain-driven motors. The E200 is for ages 10 and up and weights of up to 100 kilos. E200s - Features: * Speeds up to 12 mph * 45 minutes of run time (from a full charge) * Variable speed control with auto brake cut-out * Pneumatic front and rear tyres (20cm x 6cm) * Sturdy, welded-steel frame, fork and handlebars * Adjustable handlebars * Seat height: 53cm (from platform) * Powder-coated frame prevents rust * Two 12-volt sealed gel-type batteries * Battery charger * 250 watt * Charge time: 4-6 hours * Size: 94 x 22 x 108cm * Recommended maximum rider weight: 100kg (220 pounds) * Ages: 10+ Warning: Safety Information. Read and understand the owner's manual before riding. Safety equipment, such as a helmet and elbow and knee pads are recommended. Do not ride on public roads or near traffic. Riders are encouraged to check local laws.
