Iceberg Crystal Trophy 135x115x60 - Customize It

Product Name: Iceberg Crystal Trophy 135x115x60 - Customize It

Manufacturer: -

Model Number: cryst6

All Trophies are suitable for engraving of 2D images and lettering. 'Iceberg' is also suitable for 3D images. For image transfer to the crystals we use sub-surface-laser-engraving technology, which engraves images on the inside of crystals with incredible precision to create the affect shown in the image. The laser creates miniscule 'cracks' in the crystals that appear as tiny white dots in the clear crystal, within a precision rage of a hundredth of a millimeter. Thousands of these dots in combination are positioned to create an image, much like the pixels in a black and white digital photograph. The result is an incredible copy of the original image, that looks like a statue captured inside the crystal forever.
